

Imation Atom Flash Drive

Small is powerful

Looking at those small but powerful flash drives in the market? **Imation Atom USB Flash Drive** is your best choice. The Atom Flash Drive is embedded with SIP (System in package) module which adopts the advanced Nand flash memory packaging process.

Featuring with unique and iconic design, the Atom Drive is made of high quality aluminum. It also comes with a key chain that allows you to tie your drive to any mobile device for easy portability. Tailored to fit the size, power and performance needs of todays mobile professional, the Atom Flash Drive is compact, lightweight, and easy to store and share files up to 8GB. The enhanced for Windows® ReadyBoost™ feature offers an option on any Windows Vista PC to speed up system performance or to be used as storage device.

Features & Benefits

- **Micro size** – Extremely compact form factor ensures easy portability
- **Convenient** – Capless, plug directly into USB port
- **Peace of mind** – New SIP (System in Package) type USB flash drive is static, water and shock resistant
- **Security** – Password protection and drive partitioning software are included
- **Enhanced for Windows ReadyBoost compatibility** – Provides an option to speed up system performance or to be used as an additional memory cache
